## Profile Summary

Final-year Bachelor of Technology student in Computer Science and Engineering (AI & Data Science) with strong foundational knowledge in Python, Data Science, Machine Learning, and SQL. Hands-on experience in data cleaning, exploratory data analysis, and machine learning projects. Seeking an entry-level role or internship in Data Science / Data Analysis where analytical and technical skills can contribute to organizational growth..

## Education

**08/2022 - 05/2026**

### Bachelor of Technology

(B.Tech) in Artificial Intelligence & Data Science  
The Apollo University, Chittoor, Andhra Pradesh

### Intermediate

**8/2020 - 05/2022**

Sri Chaithanya Junior College

## Skills

Programming skills in Python and SQL, with hands-on experience in data science and machine learning

## Internships & Projects

### Data Science Intern

Belong

- Performed data cleaning and preprocessing on real-world datasets.
- Conducted Exploratory Data Analysis (EDA) using the Dot Glasses Potential Customer Survey Dataset.
- Identified trends and calculated cut-off values at global and country levels.
- Created data visualizations to support analytical insights.

### Multi-Model Emotion Detection using Machine Learning

- Developed a machine learning-based system to detect emotions using multiple models.
- Performed data preprocessing, feature extraction, and model comparison.
- Evaluated performance using standard ML metrics.

### Temperature Converter using Python

- Built a Python-based application to convert temperature units.
- Applied conditional logic and user input handling for accuracy

## Tools & Technologies

- Jupyter Notebook
- Pandas, Numpy
- Matplotlib/Seaborn
- Excel

## Certifications

- NPTEL – Data Science for Engineers
- Google Cloud Computing Fundamentals (GCCF)

## Hobbies

- playing Volleybal
- Watching Movies
